○ **Safe-sealing function:**

O-ring self-expands upon contact with engine oil to seal the pan from inside the thread.

○ **Anti-vibration function:**

O-ring counteracts self-loosening caused by engine vibration.

○ **Engine + oil pan protection:**

Reduces risk of sudden oil loss which could lead to engine damage. Protects oil pan threads by eliminating need for excessive torque.

○ **ECO-protection:**

Reduces oil leaks into environment, safe for re-use, black coating free of harmful Cr6.

○ **Liability and business risk reduction:**

Reduces risk of engine damage caused by sudden oil loss after negligent plug installation.

○ **Reduced inventory cost:**

Consolidated range of 17 plugs covers 90% of vehicles.

○ **Power-Promotions!**

Attractive packaging, POS, posters and other marketing materials aimed at dealers and end-users.

○ **Profit generator:**

Innovative drain plugs to upsell to customers or offered within special service package.

High-tech O-ring expands up to 10% upon exposure to engine oil

Complete kit with adjustable assortment case and training video and promotional materials.
